The Rain Storm —Reports from all Parts of the State.

SAN JOSE, Nov. 17.—It commenced raining here last night about six o'clock and rained very hard during the night, one and eleven hundredths inches falling from the time it commenced last evening to eight o'clock A M to-day, the heaviest fall we have had for that length of time for two years Rained very little so far to day, but still cloudy Total rainfall for the season two and five hundredths inches.

KNIGHT'S LANDING Cal, Nov 17 —It has been raining here steady for the last twenty four hours with strong wind from the south east The river has raised about seven and a half feet since Saturday and is still rising About one inch and a fifth of rain

COLUSA, Nov. 17.—During the day yesterday but little rain fell, but at night fell commenced the heaviest fall for years Morrison's gauge showing fall from 8 A. M of yesterday to 8 this morning of 3 and 3 100 inches making a total of 7 inches for the season All the streams are full, and below the town of Carmichael has overflowed quite an extent of country

STOCKTON, Nov. 17 —It has rained with but slight intermission from Monday afternoon up to 2 P M to day. It has rained steadily for the last 24 hours.

DAVISVILLE, Nov 17 —In the last four days 2½ inches of rain fell at this place giving a total of three inches this season It is still raining heavy, and a southeast wind prevails

SANTA ROSA, Nov 17 —The storm commenced Saturday night at 11 o'clock, and it has continued to rain with short intermissions since. At least two inches of rain has fallen The wind is from the southwest, with indications of a continued storm

ARCATA, Nov. 17.—The rain continues The total fall for the season is two inches The weather is warm and grass is growing finely

PETALUMA, Nov. 17.—Since yesterday at 3 o clock this morning at 11 o'clock it has rained three inches and seventy one one-hundredths At this last time it is raining very hard.

NAPA, Nov 17 —It began raining here at 7 o'clock last evening and continued until noon to day Up to that time 1 43 100 inches of water had fallen It is still very cloudy, and there is a prospect of more rain.

SACRAMENTO, Nov 17 —2 30 P M —The storm moderated a little this morning but is cold and warm The rain still continues The Sacramento river gauge shows ten feet above low-water mark and is still rising Total rainfall this season, 4 37 100 inches The levees are now at a standstill. Farmers and business men are congratulating themselves on the rain

MARYSVILLE, Nov 17—The storm which commenced yesterday continued almost uninterruptedly up to noon to-day, accompanied by a strong southeast wind during the forenoon The rain has been a fine drizzle. The gauge at 8 A M 100 inches for the past twenty four hours, making about two inches for the season

TEHAMA, Nov 17 —After continual rain for days and nights, the storm has abated. Farmers say the ground is now thoroughly saturated for all plowing purposes. All are hopeful for a prosperous year. Grass is starting finely.

YREKA, Nov. 17 —Friday evening another rain storm commenced and poured down nearly all night long without cessation It rained nearly all day Saturday to a greater or less extent, and Saturday night it continued very light as heavy as the night previous

RED BLUFF, —A little Sunday morning commenced at 6 o'clock, when the weather became cooler and the rain turned into snow, which fell to the depth of three inches in the valleys, and from one to four feet on the high mountains, snow having fallen on the mountains a good deal of the time while rain fell in the valleys. The streams are higher than at any time last winter. The rain gauge indicates a fall of 17-48-100 inches of water since Oct. This lacks about two inches of being as much water as fell here all last season, and it is still raining.

RED BLUFFS, Nov 17 —Commenced raining yesterday morning at 8 o'clock, and continued all day and part of last night, accompanied by a gale from the south It is now clear and warm; grass growing finely.

SHASTA, Nov. 17.—The storm which commenced Monday evening was severe for about 36 hours,—4 inches and 80 100ths rain having fallen, making a total of 10 inches for November, and 13,50 for the season The storm was accompanied by a strong gale from the south. Heavy snows are reported on the mountains north It is now cloudy, wind south and indications of more rain

DAVIS, Nov. 17.—It rained hard here last night and up to noon to-day The wind is changing to the west now, and the clouds are breaking away. Putah creek water has not yet come down, and the railroad is reported safe. One and a half inches of water has fallen in this storm.

CLOVERDALE, Nov. 17 —It has been raining here constantly since Saturday evening until 12 to day. It is still very cloudy but has the appearance of clearing off

WATSONVILLE, Nov. 17.—It has been storming since Saturday morning, snowing and blowing hard from the southwest until last night, when it changed to warm rain with no wind The snow is disappearing rapidly

Chasing a Sea Lion.

COLUSA, Nov. 17 —We have had an exciting chase after a stray sea lion Some fifteen shots were fired at him as he passed Hastings ranch, near Colusa landing, at Jacinto He is still keeping up the river.

MURDER IN COLD BLOOD —Philadelphia Nov 3—A cold-blooded murder was perpetrated here to-night by George Fletcher formerly a member of the fire department who shot and instantly killed James Hanley a member of Truck 15. Eighteen months ago Fletcher was arrested by Lieut Mears, charged with committing rape on Sallie McCue twelve years of age. The mother of the girl said that members of the fire department revealed the affair, and the charge against Hanley with telling up on him, and always entertained hard feelings against him He was acquitted of the charge and the matter was apparently amicably settled. At 8.30 to night Fletcher went to the truck house on Queen street called Hanley out up the street, and after conversing a moment placed a pistol at his left breast and fired Hanley expired in three minutes

ASSAULT ON A REPORTER —St Louis Nov 3 —As W P Smythe one of the reporters of the *Evening Despatch* stepped out of the criminal court about noon to day he was savagely assaulted by Pressly N Jones of the law firm of Turner & Jones knocked down and severely beaten Turner also struck him over the head with a heavy cane Smythe managed to regain his feet in a few minutes and drew a pistol to defend himself when a police officer arrived, disarmed him and arrested Jones and Turner Subsequently a warrant charging them with assault with intent to kill was sworn out against them and they were sent to jail. The attack, which was totally unexpected and brutal in character grew out of the mention in the *Despatch* of the arrest a few days ago of Jones for drunkenness and of unprofessional conduct on the part of the firm.

THE CUBAN QUESTION

THE LATEST DISPATCHES FROM WASHINGTON ON THAT SUBJECT MORE SENSATIONS—THE GOVERNMENT'S POLICY TOWARDS SPAIN UNCHANGED AND IN NOWISE WARLIKE

[Special dispatch to the N Y Times]

WASHINGTON Nov 1—During the past two or three weeks numerous dispatches have been sent from this city touching the relations of the United States government with that of Spain in reference to the civil war in Cuba The purpose of those dispatches has been to impress the public mind with the idea that the United States government has in contemplation the adoption of a more vigorous policy with regard to Cuba and the assumption of an attitude expressive of sympathy with the cause of the revolutionists and condemnatory of the protracted efforts of subjugation on the part of the Spanish government The interest which the American people naturally feel in the struggle of Cuba for national independence and the fact that the adoption of the policy outlined in the dispatches referred to might lead to hostilities between Spain and the United States, have directed public attention to this important matter Now, the fact is that all those dispatches except one are pure inventions The exception is the so called "semi-official" dispatch sent hence by the General Press Association on October 31 While that dispatch, in point of fact, is not an invention, in purpose and effect it was, as will be herein shown

Most of the dispatches referred to have been given currency for the double purpose of exciting prejudice in the United States and annoying the Spanish government, and some of them have been put out by a class of men well known in this city as large holders of bonds issued some years ago by the 'Republic of Cuba. All of them indicate a determination on the part of the President to interfere in some way on behalf of the struggling Cubans The views of President Grant on this question are beyond conjecture having been plainly expressed in his last annual message That he still entertains those views there can be no doubt, and that they will find a place in his forthcoming message is equally certain, but to suppose that he discusses this or any other question of foreign policy with itinerant callers at the executive mansion is absurd

It can be confidently stated that the president has authorized no statement of his views on the Cuban question to be made at this time, nor has Secretary Fish opened his diplomatic portfolio to public inspection The general press dispatch telegraphed from Washington on Oct 31, and which is being gravely discussed as a "semi official statement or explanation of the Washington note" supposed to have been presented to the Madrid government by Minister Cushing was extracted from the letter of instructions furnished Minister Cushing by Secretary Fish under date of Feb 6, 1874—nearly two years ago, and before Cushing left Washington for Madrid The full text of that letter will be found printed in Executive document No 1 pages 859, 863 which accompanied the president's last annual message to Congress The dent's last annual message to Congress The statements contained in that dispatch, having been literally copied from Minister Cushing's letter of instructions, are of course, correct, and no doubt represent the views of the president and Secretary Fish now as they certainly did one year ago Instead, therefore of the statements of the dispatch in question being semi-official, they are really official in character but they were not made to meet any recent emergency with regard to our relations with Spain or any change of sentiment that may have been experienced upon this question by the president and his cabinet In so far as it seeks to do this the dispatch is a mere sensation, and as meaningless as the other dispatches recently printed upon this question

The President and Secretary Fish are in perfect accord on the Cuban question and there is no reason warranting the belief that any change has occurred either in fact or intention in the relations that have heretofore existed between the governments of Washington and Madrid The purposes and policy of the American government toward Cuba are plainly indicated in Minister Cushing's instructions, and have not been a State secret for over a year. As therein stated, the President does not meditate or desire the annexation of Cuba, but its elevation into an independent republic in harmony with ourselves and with the other republics of America Such were the official ly expressed views of the President nearly two years ago and the probability that similar views will be again expressed in his forthcoming message to Congress should occasion no general alarm now At all events, it can be stated with confidence that there is no cause for public apprehension regarding the prospective action of the President toward Spain and that there is no warrant for the allegations contained in the recent Washington dispatches about Cuba and the reported movements of American naval vessels

BALLOON DISASTER

A MAN FALLS FIVE HUNDRED FEET AND SUSTAINS TERRIBLE INJURIES

[From the Rockford (Ind) Journal]

At the McLean county fair, at Calhoun, Ky recently L D Atchison a trapeze performer and aeronaut, made a balloon ascension to an unusual hight. When the balloon was descending, and when at the hight of about 1 000 feet, it collapsed, and Atchison fell with frightful speed to the ground When the balloon was being inflated the crowd called out that it was burning, but Grady, the manager of the concern paid no heed to the cries, although many of those that were present assured that it was plain that the fears of the crowd were well founded and the balloon was allowed to rise. The crowd watched the ascent with great anxiety and when the descent commenced hoped that their fears were unfounded until the balloon was perceived to be on fire and the collapse occurred when to their horror the poor victim came down with frightful speed In his descent he struck a tree top, and a large limb was broken off by the collision and for tunately for Atchison, broke the force of his fall His left thigh was broken his arm badly bruised and he received other injuries which it was feared would prove fatal

The place where he struck was close to the fair grounds, and the crowd rushed to him and it was with difficulty they could be kept back sufficiently to give the poor man air The limb of the tree lay on top of him, and the burning balloon completely covered him He was taken up and physicians being on hand, restoratives were applied and he was soon restored to consciousness He struck the ground with tremendous force making an indentation in the ground When restored to consciousness he said that as soon as he saw the balloon was on fire he tried to direct it toward the timber, and in doing so caused it to collapse, but he so far succeeded that the direction was changed so as to strike the tree He says he expected to be killed and exclaimed to himself Good by Happy Carly (the name by which he was known) and then prepared to meet his fate He bore his suffering with great fortitude only breaking down when his little dog was allowed to approach him which he cried

Atchison is a young man about twenty two years old a very clever performer and a very pleasant and cheerful young man Grady the owner of the balloon and manager of the performance incurred the indignation of the people by the utter indifference he showed to the young man's sufferings When urged to provide for his relief he answered that As his son was no more to him than a hired hand and it was not his duty to look after him but after manifestations of indignation by the people he arranged for medicines and other necessaries to be provided

Members of the Rockport band brought a portion of the balloon home with them and from the samples it is evident that it was unfit for service charred almost through by fire quite use It is probable that Atchison will be out again in a couple of weeks

Work is progressing rapidly on the new road from Weston across the Blue Mountains and if the weather continues fine the stages will be running on it by the 1st of December

CENTRAL AND SOUTH AMERICA

A REIGN OF ROBBERS AND BANDITS AT SAN JUAN DEL SUR IN NICARAGUA GOVERNOR FORCED TO RESIGN BY PRIVATE THREATS

PANAMA, Oct 21 —Some serious news up to the 11th has reached here from San Juan del Norte Nicaragua, where robberies, gambling and riots seem to have been the order of the day All through the month of September last many houses had been robbed, and the police were quite at fault as to the perpetrators of the robberies Everything left out of doors disappeared before morning This was particularly the case when a Chinago arrived from Granada The robbers became so expert that they took off doors and window shutters without alarming the inmates After one of these bungoes started up the river the authorities sent and had it overhauled All sorts of plunder was found in it—enough to stock a warehouse The bulk of the plunder had been forwarded ahead by the river mail steamer Some of the crew were arrested and tried

On the night of the 30th of September a party of these bandits assembled and set out for the purpose of assassinating the governor, the judge, and the public notary They were well armed with guns pistols and machetes The judge was not at home but the governor, in response to their shouts, opened a window, when he was greeted with a shower of bullets, one of which took effect in his shoulder The wife and daughter of the governor were slightly wounded by bullets which entered the house The governor returned the fire, and so did the police, one of whom was killed in the plaza The robbers then ransacked the Cabildo and broke in the prison doors and liberated the prisoners On the morning of October 1 the foreign residents and owners of property met at the house of Hollenbeck & Fromann to consider what should be done A commission was sent to the rioters to ascertain upon what conditions they would surrender They replied that the governor and the judge must resign and others must be appointed and if they did not resign the rioters would fire the town The governor finally agreed to leave his post, and the acting English vice consul was put in charge At last a force of 80 soldiers came down and restored order in the place

It is further stated that these rioters are in league with a band of robbers who have a rendezvous in Costa Rican territory at Tortuguero a place near the Colorado river and that they are making efforts to get a still larger force of robbers together to make another attack on San Juan del Norte

EXPENSIVE LAW

A CONTRACTED LAWSUIT ARISING FROM A CLAIM OF 25 CENTS

The Rochester *Union* of a late date relates the following: "Some time since a Mrs Hickok arrived by the New York Central Railroad from the East She had with her a large satchel, which was checked and placed in the baggage car On alighting Mrs Hickok presented her check, but, after searching some time, the baggage man told her it could not be found She then left, and later in the afternoon one of her sons drove down to the depot to see about it By this time the missing satchel had come to light, but the baggage master refused to deliver it up until 25 cents had been paid for storage Mr Hickok refused to pay the money, as it was not the lady's fault that she did not take it with her, and left the satchel there He went to Justice Allen's office and obtained a writ of replevin A suit was also brought against the company for damages and costs, amounting in all to $12. The summons was given to a constable, who made a personal service on the baggage man, which of course, was taken no notice of On the day appointed for the parties to appear, the defendants did not put in an appearance, and the justice, without looking at the summons to see upon whom it had been served, entered judgment for the plaintiffs Shortly afterward, the attorney for the road came into Justice Allen's office and told him if he issued an execution on that judgment at not being properly served, he would sue him This put the justice in a fix for if he did not issue the execution the plaintiffs would have the right to sue He accordingly issued the document, and Constable Brown levied on some trucks at the depot The attorney then commenced a suit against Allen before Justice Staples and the consequence was Allen had to pay the damages and costs Another suit has now been commenced against the road for costs and damages and a summons is waiting to be served on George J Whitney, as one of the directors when he returns from Syracuse Under all these existing circumstances, it seems that this twenty five cents will increase to a large amount before the case is decided."

DEMOSTHENES IN TOULUMNE

[From the Sonora (Cal) Democrat]

The down stage from this place was stopped by three masked men, armed with regulation shotguns in the Salt Spring valley, near Milton last Tuesday morning Sam Smith was driving and he took this opportunity of delivering an oration that he composed in his mind shortly after the last stage robbery on this route It is as follows Gentlemen, I have been a driver, boy and man, going on 20 years I never ditched a stage or growled at a passenger, and gentlemen I assure you I have had some of the toughest outsides that ever left Boston for a week's chasse in Yosemite I have met gentlemen of your kind before, and I defy any of them to come forward and say that I ever treated them with contempt, on the other hand it has been my aim to act toward highway—, excuse me gentlemen I mean road agents, with that distinguished consideration due their standing in society Hence you will believe me when I say that I have nothing for you this morning D—d sorry, gentlemen but the truth of the matter is, Wells, Fargo & Co's boxes are young sportsmen on this route just now, and you couldn't squeeze a penny out of them to save your sweet necks from the gallows Whether the two of agents understood this harangue or not we cannot say as they did not reply, but it had the desired effect and no further attempt was made to molest either the express treasury or the eight passengers on board We do not however, commend the policy of barefaced falsehood in cases of this kind It has the effect of causing highwaymen to lose confidence in a stage driver's truth and veracity, and lowers him greatly in their esteem

NOTHING MEAN ABOUT HIM

A Western paper tells the following

A man went into Slights omelet parlor a few days ago in an excited manner and called up to the proprietor and

Do you make wedding cakes

Yes sir' said Slight

Well said the other I am to get married to day an I want a cake I'm so stuck on Imogene in fact in everything right up to the handle and to get married but once and you bet I'll make things howl

Slight smiled blandly and chanced a little flirtation and twenty elaborate wedding cakes, consisting in beauty of frosting and artificial flowers rest was a small price only

How much will it be asked the excited purchaser I can't tell said Slight

That's the style for me, here's my old pard wrap it up Thurs as this is an extra I don't care if it was six bits

Slight gazed after the excited customer as he went at about five minutes to eight o'clock of same event and in the crowd and in the throng he espied his man, and then accompanied by a friend he made his way through the piles of [illegible] and calling to [illegible] Slight [illegible] package passed away for the [illegible]

HERZEGOVINIAN REBELS

TWO LEADERS OF THE REVOLT, LJUBIBRATICH AND PERO'S CRUELTY OF THE LATTER—A BARBAROUS CUSTOM EXHIBITING THE HEADS OF SLAIN ENEMIES

A correspondent writes from Ragusa Austria to the New York *Herald*, concerning a visit to the country occupied by the Herzegovinian insurgents

In the camp the visitors saw Ljubibratich and Peko Paulovitch, the chiefs who are best known and do the most effective work in Herzegovina Ljubibratich still holds a prominent place among the insurgents but is not the man to lead them He is a man of remarkably fine presence, of noble aspect has command of several languages and is thoroughly in earnest but he is rather fitted for a representative of the insurgents near foreign governments for an envoy to explain and and apologize for events than for a chief of this dread band whose mission is to kill kill, kill until the terrified Turks will be glad to flee from the country Ljubibratich has much influence with Peko who was originally sent from Montenegro to pacify the insurgents and to tell them that the hour had not yet come Peko found at first that Ljubibratich opposed him and stood in the way of his mission, so he took measures to have him arrested in Montenegro when the various heads of the insurrection became so eloquent in behalf of their cause that Peko himself could wait no longer but sent back word to the Prince of Montenegro that he had joined the movement and could not consent to hear another word about pacification It is not to be supposed that this intelligence created any profound sadness in the breast of the Prince, who knew that Peko would make havoc among the Turks Peko is

A GIANT IN STATURE

But his frame is somewhat broken by fatigue His knees are bent and his mighty arms have not that wonderful force which they once possessed Still he would pass anywhere in middle Europe for a giant and a Hercules He has killed many Turks and cut off their heads in real Montenegro fashion, and he never loses an opportunity to put a bullet into one when he sees him Peko is eternally smoking a gigantic chibouk when he is not engaged in scouring the country, and he only removes it from his lips to look up slowly yet fiercely at any one who asks him a question, and after several minutes of deliberation to answer in a hoarse voice, accompanied by sweeping heavy gestures He is a barbarian in appearance, but a noble man at heart His ferocity is engendered by what he considers the necessity of freeing his countrymen from the Turkish yoke He would not go out of his way a step to save a Turk from the most horrible tortures Yet at the same time he would tenderly care for a kid with a bruised leg and would not willingly harm a fly He was asked by the visitors for some circumstantial details of the villages which he was reported to have laid waste in this section He answered with the greatest frankness, stopping laboriously to count on his fingers or on a rude tally board, constructed of little pieces of wood, which he carried at his side, the number of houses burned or of persons killed After he had recited the fate of a number of villages he was asked concerning one he had not mentioned He looked up at his questioners then straightening out his right arm he drew it around in a huge circular movement, as much as to say "The village was raised to the ground"

IT WAS PEKO, FOR ILLUMINATION,

Who volunteered to conduct the visitors to the rendezvous which the rude insurgents had formed in a wild nook in one of the mountain passes near the camp As any one familiar with the history of Turkey in Europe knows, it has from earliest times been the custom of victors in battle to cut off the heads of their enemies The custom prevails to day, although, of course, to a much more limited extent than in more barbarous times There are still to be seen in certain portions of the Turkish provinces towers ornamented with the skulls of murdered Christians At Cettinje, in Montenegro, there was for many years, on a rock which overhangs the town, a collection of Turkish heads always to be seen gramming in ghastly fashion from a small round tower It was only a few years ago that this barbarity was suppressed in Montenegro by the vladika dantlo In war time it is said to be revived The insurgents have their temples where they can learn to revive the hatred which they feel for their oppressors, and Peko took the visitors to see one of them It was at the foot of a withered tree that the visitors saw the body of a Turkish man, which had been brought from the battle-field below and had been placed in an upright position The arm of the dead man was thrown around the neck, and Peko and his companions forcing it back, showed to the visitors that the man's throat had been cut, and that the gaping wounds were filled with the worms of corruption There were also heads of Turks here, some thrown carelessly down upon the ground and others arranged with some pretense of artistic skill. The spectacle was one which

FROZE THE BLOOD OF THE VISITORS

With horror, and against which they could not restrain from remonstrating Peko heard of their remonstrances with a kind of satisfied smile but made no answer to them whatever As I write this letter I receive the news that the day before yesterday Peko and his men in conjunction with the forces under Ljubibratich, fell upon and surrounded the Turks guarding a convoy from Klek and routed them completely A Montenegrin who was in the field, and who arrived here this morning by boat severely wounded, swears that he saw 65 heads cut off so that friend Peko doubtless thinks of establishing another rehguary This barbarity is practiced quite as much for the purpose of filling the minds of the Turkish regulars with terror as for any other reason Ytaghan charges are as fatal to Turkish discipline as the bayonet charges of regular troops are to the valor of savages When the Montenegrins throw aside their guns, grip their knives and go into battle with a rush few Turks stand before them. There seems no doubt that the battle of Wednesday, near Klek (at Utown)—so say the most reliable reports—was characterized by great barbarity The insurgents do not pretend to take any prisoners in battle They finish the wounded by cutting their throats As for the Turks, they retaliate as much as possible by giving no quarter although they strenuously deny the fact Happily in this latitude the denial of a Turk does not carry much weight with it

OPINIONS OF EMINENT AUTHORS AND OTHER WRITERS

PROFESSOR SUMNER

Inconvertible paper is a suicidal folly in the country which adopts it"—*Prof Sumner's Int Currency p 159*

An irredeemable currency is like a disease in the blood, undermining the constitution, and spreading decay through all the arteries of business—*Sumner p 923*

The story of Austria shows that an irredeemable paper currency is a national calamity of the first magnitude of which one may indeed find greater or less examples, but of which the least is a prompt cry warning statesmen and financiers—*Prof Sumner, p 111*

A bad paper currency cannot circulate together The worse will drive out the better Gold will not flow in while the inferior currency fills the channels of circulation If the inferior currency be removed the exchanges will be turned the cutflow will stop and if any vacuum is created gold will flow in to supply it—*Prof Sumner p 50*

For us the currency question is one of the first importance in the past and we must meet it by specie or it. We have got to face it and work it through and the best way to begin is not by wrangling about speculative opinions as to matters of science but to go back to history, and try to get hold of some firmly established principles, from which we can proceed with some confidence and certainty—*Prof Sumner, p 126*

CHARLES A MAN.

"As the emission of inconvertible paper progresses, all prices advance, and the rates of wages are enhanced with other things But unfortunately for the laborer it is a rule almost without exception that the prices of all the necessaries of life rise more than wages —*Mann, p 196*

Since the power to contract the currency has been repealed *industry and commerce have taken a fresh start". Mann, p 192*

Prosperity based on paper is like the exhilaration produced by alcohol the discomforts which follow the debauch exceed its pleasures —*Mann*

"The issue of inconvertible paper adds neither to the amount of capital in the country nor to the efficiency of labor and hinders rather than aids the union of the two"—*Mann p 187*

HON J SHERMAN.

Convince the commercial world that you will redeem this currency in gold, when presented, and it becomes par in gold *It will then buy as much food and clothing as the best gold coin issued from the bank* When we can redeem it it will be like the Frenchman's bank bill—if you got the money, I don't want it, if you haven't I do. Then the note and the gold will circulate side by side the one interchangeable for the other. To accomplish this is now the highest object of statesmanship and the greatest good to all classes, but *especially to those who labor for their daily bread*

JOHN STUART MILL

'All variations in the value of the circulating medium are mischievous, they disturb all contracts, expectations and values *It is the already burdened beast—the struggling poor—that bears the heavier load, at last*"

'There is no way in which a general and permanent rise in prices, or, in other words, depreciation of money can benefit anybody, except at the expense of some one else

SALMON EGGS SHIPPED FROM THE M'CLOUD RIVER.

The following is an exhibit of the season's work at the United States salmon-breeding establishment on the McCloud river

Sent to New York	80,000	To Colorado	200,000
To New Jersey	320 000	To Utah	100,000
To Rhode Island	200 000	Kern and Truckee rivers for Cal's	600 000
To Massachusetts	80 000	To New Zealand	50 0 0
To Connecticut	480 000	To Canada	80,000
To Pennsylvania	480 000	To W Clarke for the U S Fish Commission	3,000,000
To Maryland	560 000	To W Stanley Hatching st, Fish establishment on Sacramento river and tributaries	2,000,000
To Virginia	320 00		
To Michigan	800 000		
To Illinois	80,000		
To Wisconsin	40,000		
To Minnesota	400 000		
To Iowa	800,000		

The total number of impregnated salmon eggs taken was 8,170,000 The above shipments made over eighty bushels in bulk and it took one hundred and fifty bushels of moss from Mount Shasta to pack them in When packed they weighed ten tons and filled one hundred and fifty-six boxes two feet square by six inches in depth

IDIOCY IN THE UNITED STATES —The number of idiots in the United States, according to the census of 1870, was 34 527, of whom 11,485 were males and 10,042 females; 3 188 were colored, and 1,045 were foreign born But the number and their proportion to the population cannot be ascertained with any satisfactory degree of accuracy. The census statistics are untrustworthy, both from the different standards adopted by enumerators and from the difficulty of persuading parents, from whom the returns are usually obtained, that their children are idiots. Some of the worst cases in idiot asylums were brought there by their friends, not as idiots, but as being a little peculiar in their habits The effort has been made in several States to obtain returns from physicians, clergymen, and town officers, but with very moderate success. So far as these returns go, however they show a much greater prevalence of idiocy than has been commonly supposed, and it is now generally conceded by competent judges that the number of idiots is greater than that of the deaf and dumb or blind, and as great as that of the insane, the proportion being not less than one in one thousand of the population Assuming this ratio, the number of idiots in the United States would be more than 38,000. —*Appleton's American Encyclopedia, second edition, article "Idiocy"*

THE CONVEYANCE OF NATURAL GAS THROUGH PIPES —Etna and Sharpsburg were illuminated on Thursday night by gas brought through eighteen miles of pipe by the Natural Gas Company, from a well in Butler county. Twenty minutes after the gas was turned on at the well it was rushing through the terminus of the pipe at Etna, and in volume sufficient to supply double the quantity of burners required at each of the iron mills in that vicinity, where it is proposed to use it When ignited it made a blaze which lighted up the whole surrounding country A large number of well known gentlemen from this city were present, and the practicability of transporting gas through pipes in sufficient quantity to be of use was fully demonstrated The experiment was inaugurated and carried to a successful conclusion by the Natural Gas Company The gas is conveyed through a three inch pipe, and in about a week or ten days will, it is thought, be regularly fed into the furnaces of the iron mills of Graff Bennett & Co, and Spang, Chalfant & Co, at Etna, and Bennett's Station, on the West Pennsylvania railroad —*Pittsburgh Gazette*

AN ANCIENT WALL IN MISSISSIPPI —About eighteen miles from Port Gibson and one mile from Brandywine Springs, on the place of Mr. O Quin, the existence of a great number of blocks of cut stone has been known for an indefinite time, and the people in the neighborhood have used them as props for their houses Mr Jas Gage, Jr., went out there a few days ago to explore and had a specimen stone sent into town It is about three feet long by twenty inches square resembling in shape a bar of soap It is probably a native sandstone Mr Gage took this block himself from beneath the roots of a large pine tree It formed a portion of a wall about twenty feet broad at the top, which Mr Gage traced for a distance of 200 yards The inference that one would naturally draw from this superficial view is that this must have been a city wall, but deep exploration might show it to be a portion of a fort temple, or other building Anyway, its antiquity is probably immense, antedating the history of the red men —*Port Gibson Standard*

A CLEVER THIEF —The Paris correspondent of the London *Daily Telegraph* writes to that journal There is rejoicing in the police over the capture of a droll scoundrel who has long given them work to do This fellow hung around the Lyons railroad station about evening time On catching sight of a traveler who looked simple he made acquaintance in a lonely spot and mysteriously offered to sell patent watch chains of amazing beauty and incredible strength "Try it" said he "you're a fine man but even you can't break my chain So the chain was handed round the fine man's wrists and snapped to While he struggled with it the vender would calmly lay him flat take all valuables and make off For years this ruffian has been playing his ingenious game going sometimes into the country One night lately at the Lyons railway he found a victim chained him up, plundering him and ran away But the country man chanced to be particularly strong and swift He broke the hand cuffs and he caught the thief

A FOUR STORY —A story is going the rounds that a Tennessean named King while resting on his farm in that State was robbed in 1862 at different times by soldiers of both the Federal and Confederate armies To avoid these troubles he removed all his produce and valuable effects to a cave in the Cumberland mountains One day a furious storm threw down a large rock which closed up the mouth of the cave Failing to extricate himself from his secluded position he lived there ten thirteen days eating from his produce and drinking from an inexhaustible spring The other day a railroad company blasting for a tunnel blew him and the remainder of his provisions out of their solitude Tough, but not improbable —*Carson Bulletin*

OREGON.

The LaGrande *Sentinel* must be prospering as it has moved into a brand new office

Governor Grover has appointed John J Coffey of Baker City, a notary public of Oregon

Over 60,000 bushels of wheat have been handled at Turner's station this season so far, and more coming

Another vein of superior coal has been struck at the Upper mine, Coos Bay above the vein heretofore worked and of good quality, good for blacksmithing purposes

The recent high water in the Wallamet river swept over the mill dam belonging to Messrs. H Smith and W. W. Briggs, near Harrisburg The damage is perhaps $1,000

Mr Daniel, "hooker jon" in the Henryville mine was seriously injured a few days since It seems that he stepped on the discharge pipe and fell across it, striking on his side and injuring him internally

An association has been organized to improve the church grounds and cemetery at Spring Valley, near Zena, and sufficient money has been subscribed to place them in good condition Smiley Purvine, George T Wait and Bent Wann have been elected trustees to expend the fund and make the desired improvements.

From parties who have recently traveled through Polk, Yamhill and Washington counties, the *Mercury* learns that the roads in that section are in a fearful condition The farmers have got very little plowing and still less sowing done, and the prospects look gloomy for them. Unless we have a change in the weather soon the area of fall sown grain will be much less than it has been in many years

J Noah's raft, at Marshfield, was run into by the tug *Fearless*, Wednesday night of last week causing about 100 logs to go adrift At North Bend, on the same night, George Wasson's raft broke loose This was the finest raft of cedar logs that has been brought to that place for five years; so the mill was shut down Thursday, and all of the hands were out gathering up the logs. Nearly all of them were saved, but at some expense George Downs reports Isthmus Slough full of logs. Loggers seem to be having a hard time of it.

The new town of Stayton, Marion county, six miles above Aumsville, has grown up rapidly the latter part of the past season. The new flouring mill at Stayton; nearly ready, will run two sets of burs and a feed cracker. The building is 36x45 feet, 4½ stories high, with turbine water power and the modern attachments, etc. Besides the mill, Stayton includes among its late improvements, a saw mill, carding machine, large furniture factory, two warehouses 20x48 feet, large sash and door factory, chair factory, one general store, one grocery store, one drug store, shops, schools, debating society, and other societies

One evening last month says the *Spirit*, a respectable and esteemed farmer near Milton, Umatilla county, returned home after a few days absence impressed with the feeling that all was not well thereabouts The sequel showed his premonition of something wrong to be well founded On entering the house no busy housewife plied her evening care No children ran to lisp their sire's return, or climbed his knees the envied kiss to share" All was deserted The partner of his bosom had flown to "fields and pastures green." This he did not regret, but rather began to congratulate himself upon the happy relief. Passing in review, however, the various sources of income on his ranch, he perceived that the half did not consist in the loss of an unlawful frow. She having an eye to the future, was not content with the taking away of her valuable self, but had sold the wheat and much of the stock of the farm, and taken the proceeds also; The husband had felt for some time that another man—a teamster in occupation—was usurping the heart of his fair one, and he proposed to give her the money and let her go her way. But she signified her wish to remain until his return, and nothing suspecting he left her in possession of the premises. Her "particeps criminis" went to the Dalles overland, and she followed by way of the railroad and river.

We hope the Democratic papers will endeavor to get their nerves quieted down a little, now that the election is over Some of them seem to be oppressed by the most horrible nightmares, Thus we read in the *Express*

'A word to the future. If Gen. Grant takes possession of the national party convention next year, and procures a nomination, the results of Tuesday's elections show that not even New York Republicanism will dare to lead off in opposition to him."

The *Express* ought not to alarm itself with these dreadful bogies especially at its time of life A change of air and a gentle tonic will soon enable it to recover from its shock of Tuesday. We can assure it that Gen Grant will *not* take possession of the National Convention next year, will *not* procure a nomination," and consequently need not be so great an object of terror to the editor of the *Express* The Democrats cannot win any more elections on the 'third term' cry. A pretty party it must be when this is all it has to fall back upon the day after a tremendous defeat Anybody would think that it was led exclusively by a bevy of old women, whose nerves were all broken down by a prolonged indulgence in "lacedisa."—*N. Y Times, Nov 4*

HARD TIMES AHEAD.

Jake sauntered up to where Pete was sitting mending a whip-lash

Pete, please, sir, lend me a quarter?"

Is you afool?" said Pete

Pay yer back next week, 'clar to grashus"

Takin' up a kerlection to get into the circus, am ye?" again queried Pete

No I ain't I swar I ain't—I m got a percuckler use for dat quarter to day!' earnestly urged Jake

Well, I can't negosheate de quarter fer ye to day, Jake,"

Pay ye back, shure, Pete, of I don't I hope I may die!"

Yer can't do it, chile, I tell ye' Dere's mighty hard times comin' nex' week—de circus he hyar an'll bankru de town 'Spose ye don't recollember dat de cirkus wid one elephant last year nigh busted Atlanta and now it's jes' gone—took a dat!—four elephants, an I tell yer money's gwine fer be skeerce dan freedman banks round hyar nex' week! Go 'long chile!

And the child went off minus the quarter —*Atlanta Ga. Constitution*

Thus does an exchange dispose of the sensational dispatch which reached here a week ago detailing the facts and circumstances of the preparation of the President's message by Senator Morton and the president together

The insertion of the third term, of Senator Morton, and of Grant's alleged 'idea, indicate a touch of genius Of course every one of these statements is purely gratuitous We do not believe that Morton has been admitted to the president's confidence or that he has expressed any such idea as is here attributed to him or that the third termers are more in the actual persons than Washington Bohemians But the ingenuity here advanced with a staging show of information and the imaginative flights of Newspaper Row are invested with quite a diplomatic importance Meantime it will be quite soon enough to discuss the presidential programme when it has been published with undoubted *imprimatur*, and whatever precedes that publication must be regarded merely as the preliminary scraping of the fiddles in the political orchestra

At a late term of the commissioners court for Walla Walla county, Chas White one of the commissioners and A I Knowlton county surveyor resigned their offices, and P Zahner was appointed surveyor and V D Lamber was appointed coroner that office being vacant

A boy 14 years of age recently arrived in Walla Walla having made the trip alone, from Philadelphia, in ten days

THE TERRITORIES

The soldiers at Walla Walla were paid off last week

The Walla Walla *Scout* will be issued as a semi weekly hereafter

A soldier named Shupe had his arm broken near Fort Lapwai last week

A Lewiston, Idaho, orchardist has just harvested 2 000 bushels of apples

A man pounded up two and a half pounds of quartz from Mormon Basin, Idaho, and got $50 in gold

Business is brisk on the narrow gauge railroad between Walla Walla and Wallula There is an average of 25 passengers and 100 tons of freight passing each day

Mrs One Who-Holds the

The Daily Oregonian.

THURSDAY MORNING NOV 18 1875

IS THE FAULT OUR OWN?

It is impossible for a newspaper to please everybody a remark for which we do not claim a patent Paper controlled by fixed principles may manage to steer clear of the rocks of those people and may differ from but few but such journal can be neither the eloquent opposer of what is wrong or the successful advocate of what is right Whoever has views of his own on the subject that come up for consideration will frequently find himself arrayed in opposition to many of those with whom he has been accustomed to act With sensible people this involves no personal misunderstanding no interruption of friendly relations We do not expect all the readers of the OREGONIAN to agree with us in the opinions we express upon any subject Some will differ on purely political questions others on matters of a local nature and others still on commercial matters So that, on one or another point, a large majority perhaps are at variance with the opinions we express But we try to give them all the material facts touching all subjects of public interest and all the current news of the day that they may be enabled to form intelligent opinions of their own and not be misled by any erroneous views of ours

With regard to the necessity of a house of correction or reform school for the reception of vicious youths, there appears to be no difference of opinion in this community but one or two persons only one or two so far as we know take exception to our idea that such an institution can be organized as a department of the State penitentiary One gentleman—who, by the way, does not live in Portland or would know better—says these young culprits are by no means to be considered as criminals, and is surprised at the barbarous sentiments we have expressed on the subject In a few remarks we do not expect to control our readers to accept our views on any subject We have given them the facts however about these hoodlums as the facts have come to light in the proceedings of the criminal courts of the city and county from time to time and we submit the case with confidence of a general verdict in our favor In all the essentials except that of age the greatest rogues in the country are in no wise different from these boys They understand the dark ways of the lifeothey lead as perfectly as any professional pickpockets or house-breakers in the land They are to all intents and purposes deliberate and skillful criminals, but their tender age forms a point on which to rest a hope that under proper restraints and surrounded by proper moral influences, they may be turned out of their criminal course In that and in that alone, lies the difference between the little boys who have lately been sent to the State prison for three years and the adult felons who are sent up from every term of court That a well arranged system of committing children taken in vicious practices to a reformatory institution, would no doubt include the committing of many who are not great criminals, is no answer to the proposition we have advocated, for, small crimes or great, it is at last crime that takes children to the house of correction

HOPS

The yield of hops this year in the Puyallup valley W T, it is reported foots up about 300 000 pounds, which is not an extraordinary quantity But when the small acreage is taken into the calculation it is very remarkable and we venture to say is not equaled in any other section either in Europe or America A new hop yard the first season in Puyallup frequently produces from 600 to 1000 pounds to the acre whereas, in England Wisconsin or New York no attempt is made to gather from the vines the first year This year a number of yards produced 2,000 and even 3 000 pounds to the acre No field that is properly cultivated will produce less than 2 000 pounds per acre after the first season, and as there are at least fifty thousand acres of good hop land in Washington Territory where parasites of all kinds that prey upon the vines are unknown, it is easy to see that an illimitable quantity can be produced Some timid people have feared that if a few more farmers were to engage in this branch of agriculture the market might be overstocked, but all such should bear in mind the following facts England is the great hop-producing country of Europe, her acreage this year being 70,000, which ought to have yield 1 64 000,000 lbs of hops, but the rain would not let weather in picking time reduced the yield 25 per cent or 51 408 000 lbs The acreage picked was only 54 000, but, taking the whole crop and dividing it by the yield, it will be seen that the quantity of hops produced per acre in England is only 745 lbs This is scarcely a third of the average yield on Puget Sound and when we take into consideration the fact that hop land here does not cost a tenth of the sum that land costs in Great Britain that it is virgin mold and needs no composts to replenish the soil, that Chinese and Indians can be procured as cheap as the same grade of labor can be had in Europe hop-raising ought to grow into an extensive branch of industry and be profitable

CONSTRUCTION OF THE CULLRACH

During the progress of the late political campaign in Ohio and Pennsylvania while the rebel Democracy were keeping up a constant din about the evil effects of manufactories and commerce generally of the want of sufficient currency to transact the business of the country, the authorized amount of circulation was undergoing a steady process of contraction by the surrender of more currency by the old National Banks than the amount of notes taken out by the new banks Within the last three months sixteen National Banks have been organized, with an authorized capital of $1 000 000 In the same time, $6,752 50 of bank bonders have been deposited for the redemption of circulation and $7 510 000 of new bills actually been circulated and issued In the three months, $1 91 7 10 of additional circulation has been issued to new banks Here is an actual contraction by voluntary surrender of circulation amounting to several millions in three months If there was not currency enough in circulation to transact the business of the country why was it impossible for the capital of the banks to find employment so that it was surrendered back to the government

THE OTHER SIDE

As we said the other day when commenting on the admission by the Sacramento *Bee* of the charge made by the opposition that the Republicans of New York were in combination with the canal thieves the question is not altogether one sided The New York *Times* shows that the heaviest gains of the Republicans were made in New York city and in the counties adjacent thereto where the canal ring exercised no influence while in the Interior where the ring is most influential the change from the vote of last year is by no means so great The fact is says the *Times* That the victory is very largely due to the people who usually stay at home in off years and who were only induced to come out and vote against the Kelly candidates by a perception of the importance of the issues which depended upon their action There are among the subscribers to the *Times* in this city at least 10 000 voters who seldom go to the polls unless at a Presidential election and sometimes not even then The *Times* was the paper that took the lead in exposing the Tammany frauds in 1871, and in so doing it brought out these stay at-home voters of that year and again this year they came out because of the apparent necessity of rescuing the city from Tammany rule

THE FALLS OF LADORE

Charles Warren Stoddard has been to the Falls of Lodore and the picture painted by Southey has faded out of his mind in presence of the original In a fit of disgust he parodies that famous performance thus

How does the water come down at Lodore
How it comes down at Lodore
Why it comes down as we come down by the
[illegible]
How does the water come down at Lodore
Here it comes gaily it leaps it sparkles
Sporting and skipping and skimming and
Whipping and lipping and slipping and sliding
Over the pebbles along by the shiny bed hilling
And curves a bow white and bright and pure
As he heads for the rhythmical fall of Lodore
Thinking and blinking and rising and shaking
Acting misanthrope while floating the lot in
He comes to a toll boy he seeks to ignore
Then it's tuppence per inch and thrippence per
other
It is strange once anon for something or other
Till at last he has passed the most ill-favored—
Where he patiently waits for the waters to pour
Now they come dropping and lopping and lolloping—
I suppose it a very dry season for shopping—
There they go lazily coaxing reflecting
To cherish a name that was not of their choosing
Disturb not their slumbers but leave them a snoozing
Turning back there's the toll man who fleeced him before
He is one of the parties that make the uproar
Of the sponging brigade and he's true to the corps
(Surely southey was here when the tariff was lower)
He rips him a sixpenny bit as before
And finds that he's out of small change What a bore
It is thus that a fellow comes down at Ladore

The *Record Union* thinks the facts in the Pinney defalcation case are such that a public investigation ought to be had but it is of opinion that unless strong pressure be brought to bear to secure such action it will not be had because of the partisan interests involved

MARRIED:

In Walla Walla county Nov 7 C W Fitzsimmons and Miss M J McClure

THURSDAY MORNING NOV 18 1875

CITY.

THE TELEGRAPH HOSE A SUCCESS Yesterday the five hundred feet of Buchluh's telegraph hose apportioned to No 1's steamer was put in service the electrical batteries having been put in position and the necessary signals having been decided upon and everything only waited for the opportunity to give the hose a practical test They had not long to wait As the fire alarm rolled them out last night, they improved the opportunity by running out a long length of hose The man at the pipe more than a block away from the engine touched the key and immediately the bell on the engine rung the signal for water which soon came pouring from the nozzle Then a series of signals were given by the boseman at the pipe, and true to expectations, the flow of water was perfectly regulated—started increased lowered stopped, etc without any other command than the touching of the key The faster signal was repeated till a very high pressure was attained, and then while the steamer was working at full speed the slower signal was telegraphed and the speed was soon so much reduced that the water was just flowing from the pipe The facility with which the firemen acquired the use and control of the telegraph proves the simplicity of its, contrivance, and the perfect working of the hose proves its success So that Mr Buchtel has already the satisfaction of knowing that in practical use his invention has proved that it is simple and practicable two of the great requirements of new inventions and the other, cheapness is evident from the fact that the telegraph hose was purchased by the city *for forty five cents per foot* less than the cabolized hose cost twelve months ago We are informed that no other place has yet put the telegraph hose in use, so that Portland has the credit of first using it and Williamette may boast that their steamer did the business.

THE LATE JOSEPH HELMUTH —The members of Washington Engine Co. No 1 at Walla Walla, held a meeting recently at which a series of resolutions of condolence were passed in respect to the memory of the late Joseph Helmuth one of the victims of the *Pacific* disaster, and who was likewise a member of that organization Deceased was a brother-in law of Mrs. Farg Aly of this city He was born in the year 1830, in the city of Dembach, Alsace, then a part of France and continued to reside there until the year 1850, when he emigrated to America In the year 1859 Mr. Helmuth settled at Walla Walla, where he continued to reside, with only temporary interruptions, to the day of his death In the year 1860 he was very active and energetic in the organization of the first company of firemen at Walla Walla and in the year 1862, out of his own private funds made a considerable advance for the purchase of the hand engine now owned and used by Piper Engine Co 2 His activity and zeal in the matter pointed him out to the citizens as the most appropriate man to take charge of and act as the leader of the enterprise He was accordingly chosen and became the first foreman known to the fire department of Walla Walla.

PROBABLY CAME FROM THE WRECK The ugh the courtesy of Col H Clay Wood we were permitted yesterday to peruse a letter which that officer recently received from a gentleman, who resides at a trading post on Prince of Wales Island The writer states that a short time prior to the time the letter was penned, a small water or oil tank came ashore at Mesachie Nose, on Prince of Wales Island about 5 miles from the trading post of Howkan The tank is drum shaped constructed of boiler iron with two inch bands around each end. It has a small hole at one side through which water or oil could be poured but the aperture was closed tightly when the tank came ashore The tank was empty and has a capacity of about 40 gallons It was picked up by Haidah Indians, and is considerably bruised and indented, as would naturally follow from being tossed for a long time about by the sea on a rocky coast Mesachie Nose is about 25 miles from the point where the remains of Major Walker were discovered Although there is nothing about the tank by which it can be identified the writer is strongly of the opinion that it came from the ill fated steamer *George S Wright*

FINE VEGETABLES —Mr B F Whitson who resides in the Yakima country has on exhibition at this office a box of vegetables which for size and quality are among the largest which we have yet seen in the State. These vegetables consist of turnips, carrots beets onions, parsnips and potatoes They were grown this season in Kittitas valley in Yakima county. The lot exhibited can be taken as an average sample Mr Whitson states that he can "discount" those now on exhibition at this office, if he should take the trouble to select the largest vegetables grown in that section of the country

TRANSFERRED —We are informed that Gen Michler, who has had charge of this light house district for about two years has recently received orders from the department at Washington to report at Philadelphia to await further orders On reaching that place Gen Michler will doubtless be assigned to some district not at present designated Gen Michler has made a very efficient officer and we regret his departure from the State. Gen Wilson we learn will be assigned to this district. Gen Michler will probably not start East before the 1st of January

FIRE ALARM —A few minutes after 9 o'clock last evening the fire department was called out by an alarm struck from box No 12 The cause was found to be a burning flue in the house occupied by Chinese in the rear of Good Templars Hall The Celestials flocked in the vicinity in vast numbers, and extinguished the blaze without the aid of the department, but the several companies were promptly on hand and ready to combat the flames had their services been required

WOOL PULLING ESTABLISHMENT —We have just learned of a wool pulling establishment which has been recently started near Portland This business, although carried on successfully in California for years has never been attempted in Oregon All sheep pelts heretofore have been shipped to San Francisco for a mere nominal figure and pulled there thus giving California the benefit of that branch of our production We understand it to be quite an important business.

CLEAN THE GUTTERS —Street Commissioner Perry Davis desires us to request the dear people" to clean the gutters at the street corners. By raking away the leaves and deposit from the entrances to the sewers and preventing the mouths from becoming choked thereby accumulation of surplus water can find speedy passage to the river Prompt attention to this matter will save much trouble and inconvenience.

FLAX —Mr H F Bloch showed us yesterday two species of flax which were grown the present season on the farm of P M Coffin in Union county The seed was obtained in this city and sowed on the 20th of last May on land which was not prepared The specimens exhibited belong to two varieties the Riga and Dutch, and will compare favorably with any which we have yet seen this season

WEATHER REPORT —From the records of the U S Signal Station of Observation Portland Oregon, November 17 1875

JUDICIAL OPINION —In the U S District Court, this morning Judge Deady will announce an opinion in re Oregon *Ballast* Co, on the motion to strike out the denials as to the number and amount of claims of creditors joining in the petition

HOUSES BLOWN DOWN —A gentleman who came from Albany yesterday afternoon informs us that the wind prevailed at that point very high during Tuesday night Several new houses which were in process of construction were prostrated by the gale

The time to buy winter goods is now and the prices to buy them is Lock & Wolf man's, Front and Washington streets Their stock of youths clothing is worthy of special notice.

HEAVY RAIN AND WIND STORM AT ASTORIA.

From the officers of the *Dix & Thompson* we learn that Astoria and vicinity was visited by a terrific rain and wind storm during Tuesday afternoon and night, which did much damage

During Tuesday afternoon and night the rain fell in torrents, accompanied by very heavy wind Great numbers of trees were prostrated by the violence of the gale and several houses blown down The wind swept up in fitful gusts and for some time made things quite lively for the Astorians

A portion of the unfinished roof over Paulfinger's sawmill was caught by the wind and carried off quicker than it requires to tell

A house standing back on the hill was also blown down Owing to the early hour at which the steamer *Dix Thompson* left there yesterday morning the officers were unable to inform us whether the house was occupied or not or that any person was injured

It was reported when the steamer left Astoria that the roof of Arrigoni's new hotel was blown off but nothing definite was learned

The dwelling house of Mr Miller was partially burned through last night It was reported that Mrs Miller had sustained severe injuries and also that Mr Miller was slightly injured

Another building occupied as a bowling alley could not withstand the violence of the gale and went over No one was hurt so far as could be ascertained

The O S N Co's barge *A Isaral* was very roughly handled and narrowly escaped being totally wrecked During Tuesday afternoon the barge was being alongside the ship *Benj Sewall* She had on board at the time about 30 tons of wheat after having completed the cargo of the *Sewall* The gale was so strong and the water so rough that the *Isaral* was thrown violently against the side of the ship and had her gunwale and the side of the cabin crushed in Finding it hazardous to remain alongside the *Sewall* the tug *Geo Conley* was sent out to tow the barge to the Farmers wharf but the wind and water proved too much for the *Conley* and she was compelled to quit to her and the tug *Astoria* before the *Isaral* could be brought to the wharf While endeavoring to tow the barge to the dock, the gale set in with such fury that the whole roof and upper works of the *Isaral*—except the pilot house—was torn away thus leaving exposed to the storm all the wheat which was on board at the time It is said that the grain is ruined—at least, is rendered totally unfit for shipping purposes At length after encountering great difficulty, the tugs reached the wharf, when the barge was securely moored

During the continuance of the storm which raged for some hours, the staunch steamer *Dix Thompson* did not escape unscathed A portion of the awning attached to the Farmers' warehouse at wgside of which the steamer was lying was caught up on a sudden gust and borne some distance where it fell with a terrible crash One corner of the awning struck against the side of the steamer's cabin breaking off several braces which support the roof rushing a hole in the side of the boat and doing other damage Fortunately no one happened to be standing near and no accident to life or limb has to be chronicled Several of the panes of glass in the wheelhouse were broken by the violence of the wind

ADDITIONAL

Since the above was in type we have obtained the following additional particulars of the storm

Captain Flavel's pile-driver which was capsized and sank some weeks ago and raised at considerable expense, was blown over In falling the guys struck across some logs, breaking them into kindling wood

Captain Hobson's wharf was considerably damaged by drift logs under it The wharves owned by Mr Twilight and Mr Parker were also damaged in like manner

The back portion of Peachey's restaurant had the piles knocked from under the building and the kitchen dropped through

Van Dusen & Brown's old store was partially wrecked and sidewalk and wharf in front carried away

A large raft of logs out of John Day's river broke up above Tongue Point scattering the logs in every direction.

Charley Barkman's bowling alley, in the lower portion of the town had the piling knocked from under it, when the wind rendered it a total wreck in short order

A gentleman states that there must have been considerably over a thousand trees prostrated on the hills above Astoria during Tuesday night All through the night there was an incessant pop pop pop as one by one these ancient sons of the forest yielded to the fury of the storm

When the steamer left yesterday morning there was considerable wind which came from the westward

Three or four dwelling houses situated on the hills back of town were blown over during the storm A house owned by a Mr Myers was prostrated and also another building At the last mentioned house the father and husband was not at home Fortunately the woman became frightened and taking her children left the house About five minutes later the house was blown down

During the squall a flue in the Parker House took fire and created some excitement, but nothing more serious resulted

Early in the evening a porch attached to one of the dwelling houses was carried away Later at night one side of the same house was torn off

THE COURTS.

U S DISTRICT COURT—DEADY J

WEDNESDAY, Nov 17, 1875

In re St Helens Milling Company petition of assignee to sell property at private sale referred to register

The following named gentlemen were impaneled as a grand jury George Dorsey J A Roork A G Perkins, John S Hays G B Cornelius A J Watson David Stout, H J McIntyre G W Knapp William Tuss A Waltz Oliver Abernethy, David Everest R P Laughlin G L Baker Thomas Frazer Joseph LeGrand, W J Kelly, D F Harrington W Shannon Philip Reed Benj F Harding and John Copley The court appointed Benj F Harding foreman

Blake, Robbins & Co vs same motion to strike out complaint overruled defendant allowed until Saturday to answer

Mary A Koenig vs Jacob Koenig motion to strike out part of answer sustained as to first specification and overruled as to balance

State of Oregon vs Lucinda Hoofstetler judgment for defendant for costs

Mr S T Durkee is now canvassing Portland for his "Common Sense shirt pattern. By this pattern one half the labor of shirt making is obviated besides shirts can be made for less money than we have been accustomed to pay for them We understand there are parties here who will furnish shirts after this pattern made of XX Lonsdale muslin with the best of linen cuffs and bosoms for $2 complete and guarantee a perfect fit To all gentlemen either married or single we would say by all means get a good shirt pattern while you have a good opportunity Mr Durkee can be seen at his rooms No 8 O'Connor's block southeast corner Front and Washington streets, after 9 o'clock P M For the next ten days

To those who are suffering from coughs colds sore throats &c we will only say try a bottle of Mrs Jobe's New Remedy for the time This favorite medicine is purely vegetable pleasant to the taste and entirely harmless For the relief and cure of asthma bronchitis sounds and all Manufactured by Mrs J Baker Monmouth, Oregon For sale by druggists generally

The portions of that well known and popular house Fishel & Roberts are daily praising of the firm and invite a point to review their orders while opportunity offers Call and see them

The steamer now due has on board an invoice of new and splendid jewelry for H H Stone Mr Stone has made special arrangements for the introduction in Oregon of the very latest styles in jewelry every month

Retailers who have sold Linwood collars say they can't keep store without them That is a good recommendation

Iodine cannot cure you go and consult Dr Wood at American Exchange

COMMON COUNCIL.

REGULAR MEETING, NOV 17, 1875

The common council of the city of Portland met pursuant to ordinance Hon Henry Mayor Jas A Chapman presiding

Present—W S Caldwell clerk J H Lappeus chief of police and councilmen Besser Catlin Corbett Lyon Skidmore Stumm and Wiley

Absent—Councilman Hoyt

The journal of the last meeting was read and approved

PETITIONS, MEMORIALS &c

The petition of W A Smith asking that a warrant issued to sell certain property for delinquent street assessments be countermanded was read and referred to the committee on judiciary

A communication from W C Chatlin secretary of a meeting of citizens asking the council to pass an ordinance for the arrest of all youths under 16 years of age of both sexes found on the streets or in improper places after nightfall without permission of their parents or guardians was read and referred to the judiciary committee

REPORTS OF COMMITTEES

The committee on fire and water to whom the annual report of the chief engineer for the year ending July 1st 1875 had been referred reported that said annual report was incomplete in that it failed to specify the number of fires and alarms and the value of property destroyed by fire during the year as required by the city charter, and recommended that the annual report of the chief engineer be laid on the table to allow that officer to amend it in that regard The committee also state that their reasons for not making a report on the chief engineer's annual report at an earlier day was that they had held the matter back to give him an opportunity to so complete or amend it The report was tabled

CLAIMS AGAINST THE CITY

The following claims against the city were ordered paid W H Butts $319 50 P C Baker $119 25 Drew & Partridge, $15 86 D Halpruner $95 53 T M Temple $85 Hornung, $9 Electrical Construction and Maintenance Co $62 50 steamer *Fish & Shepherd* $1 25 The bill of W S Thompson $12, was laid on the table

ORDINANCES

An ordinance authorizing a contract for planking the intersection of Pine and Front streets, read a first and second time rules suspended, ordinance read a third time and passed

An ordinance extending the time for the completion of the sewer in Pine street was read a first and second time and referred to committee on streets and public property

An ordinance providing for the improvement of that part of Twelfth street lying between Washington and Pine streets was read a first and second time rules suspended ordinance read a third time and passed

An ordinance making an appropriation to defray the expenses of improving Twelfth street was read a first and second time

An ordinance making an appropriation for the expenses of fire alarm telegraph was read a second and third time and passed

An ordinance making a transfer of $2 000 from the general fund to the police fund was read a third time and passed

ELECTION OF CONSTABLE

On motion of Councilman Skidmore the council proceeded to the election of a constable to fill the vacancy occasioned by the resignation of R R Thompson

Councilman Skidmore nominated H D Sanborn

On the first ballot H D Sanborn received 6 votes 1 blank, 1

Mr Sanborn was declared elected

A CENSURING RESOLUTION

The committee on fire and water submitted a preamble and resolution setting forth that the chief engineer had allowed certain fire hose to lie on the street for a period of several months whereby it was liable to be injured or entirely destroyed, that such carelessness on the part of the custodian of the city property and neglect of the interests of the tax payers, deserved the censure of the common council

Councilman Wiley thought the council should not censure an official upon an *ex parte* statement and desired time to investigate the charge of neglect against the chief engineer and therefore moved to lay the resolution on the table

Councilman Lyon said he was perfectly willing to let the matter lay over until councilmen could have time to satisfy themselves as to the truth of the charge which could be done by inquiry among the people residing in the vicinity where the hose had been lying for months and he therefore seconded Councilman Wiley's motion

The motion was carried and the matter laid on the table.

MISCELLANEOUS

A resolution requesting the chief engineer to report to the council a list of all property destroyed by fire during the year ending July 1 1875 was adopted

The committee on streets and public property was authorized to expend $60 for the erection of street lamps

On motion council adjourned

THE TIFF.

The Walla Walla *Union* of the 13th says A few days since Mr Dring Hilliard sold his 3 year old Bellfounder filly Pet to Mr Wm Glassford This filly has been trained but very little but bids fair to make a sensation on the trotting turf She is a year old has a record of one second better time than was made by Mr Glassford's Bellflower to the same age and as the latter is said animal stands with a record this side of San Francisco now it is but fair to presume that Mr Glassford's late purchase will also be no discredit to this country or to her half sister, Bellflower

AMUSEMENTS.

The concert to morrow evening under the auspices of the ladies of the Unitarian church, promises to be a pleasant affair throughout Some changes have been made in the programme which has been issued We trust the attendance will be fully up to the expectations of those interested

At the cosy establishment of A B Miller & Co 43 First street oysters are served in every style

Try the Novelty Lapidaric—one quire paper and envelopes to match one bottle black ink one penholder one piece of blotting paper Price 50 cents Put up especially for J K Gill & Co

And still they rush to the Central Market for Fabre & Barnes coffee and lunches

Dr C M Wood who cured the sick by animal magnetism in Odd Fellows Theater is now treating the sick at American Exchange

Connoisseurs acknowledge that the best cellars made are the Linwood and Warwick If you have not tried them do so now

The Medical Institute cures all kinds of diseases paralyzed limbs by magnetism at American Exchange

The steamer *Gertrude* will not go to Salem to-day for BECK & WALDMAN who are laboring hard and will keep their promises Fitted with the very best stock ever sent to the San Francisco market carrying the finest assortment of clothing ever shown in this city Those who wish to see the finest goods made to their measure at a reasonable price and can rely upon getting a perfect fit should call at the Progress & Liberation Clothing House

Having purchased the entire stock of Mr Bellinger at 50 cents on the dollar we are now selling the same at 75 cents on the dollar Call and see us at 43 First street

Dr Wood cures all female diseases and all chronic complaints by magnetism

Remember Dr Wood cures pain immediately at the Exchange

PIANOS AND ORGANS TUNED AND REPAIRED.

Success in business has induced Prof A I Francis to abandon teaching altogether He will make regular trips through all parts of Oregon and Washington Territory Patrons can be sure of first class work as he comes highly recommended by Gray's Music Store where he has a regular engagement Also by the celebrated Pianist Frank Gilder Orders from all parts of the country may be left at Gray's Music Store and will receive prompt attention, 10dtim

REMOVED.

JOHN LACHAPELLE,
Foot of Pine St.

Coughs and Colds are often overlooked. A continuance for any length of time assertification of the lungs or some chronic Throat Disease *Brom a Bronchial Teaches* are an efficient COUGH REMEDY

A Well-Merited Success.

As contrasted with fortuitous charlatanism well merited success is less frequent than it ought to be Puffery blatant assertion and colored recommendations too often for instance give an ephemeral popularity to medicinal compounds intrinsically worthless but the experience of daily dispensing public and to the grave of Hiram Sibley Esq of Rochester N Y is a fair illustration of the fact which will be recognized one of the most signal successes of the 19th century has never left upon such a basis of genuine merit a reputation more thoroughly established than that of Morrison's Cough Balsam

SAVE MONEY by purchasing at H W MONNASTES the best and cheapest Jewelry in Portland between Morrison and Yamhill He will give more for the least money than any retail establishment in the city A large assortment of Gold Watches for ladies and gents which he will sell at a small advance on cost Repairing done in the best manner and warranted Call and see for yourself

Sterling bankers sight 490 bid 495 asked

Francs 5 60 per

Business in financial circles continues moderately brisk and with a fair supply of available funds at hand the local bank transactions are limited to about an increase in the volume of capital to sustain the trade of the season There is apparently a limited amount of business in the way of loans on real estate though the most of the applications for accommodation are in that direction but with the usual degree of security and moderate interest given on personal security or commercial paper and most transactions confined entirely to this market are for short terms at 1 per cent per month or for long periods at 11@12 per cent per annum

The recent decline in the wheat market has greatly checked the volume of transactions and the drafts upon funds held to accommodate trade in that department are less exhaustive, for the time being, while the late large movement of the cereal left a very considerable sum of money in the hands of producers enabling them to settle with the retail merchants in the interior, and these latter in turn are showing some improvement in the matter of remittances to satisfy their accounts with the wholesale houses and importers Hence under the circumstances there seems to be no reason for the complaint which is heard from some sources that there is a very great scarcity of money for this is really not the case There is of course a temporary dullness in trade circles produced by a combination of circumstances which may militate against any great degree of activity for some time yet or may do so at an early day but on the whole we can see no just reason why jobbers and careful business men should grumble at the past results or future prospects in the line of trade The condition of matters here is exceptionally better than in the wealthy emporium of the Pacific coast, San Francisco If the press of that city is correct in its report of the state of the money market there The scarcity of capital is seriously felt at that point, and the closeness is made apparent by the great falling off in stock speculations which show an average decrease in the number of shares changing hands so far the present month fully 100 per cent. below the corresponding period in 1874.

In the Eastern cities there is a better feeling in financial and commercial affairs, and the future is viewed with a great deal of confidence in the restoration of prosperity after the unusually large number of failures recorded in business circles for the past 9 or 10 months

In Europe there seems to be a steady forward movement in the general branches of trade and manufactures though the iron trade in England is much depressed and the large iron producers Bloddow Vaughan & Co, who employ nearly ten thousand men in their collieries, mines and works have notified their employes that their engagements must terminate on November 13th The depression in the trade obliges these large producers to close up their works. They can make more money by remaining idle than by continuing their business at the present time.

Canada recently had occasion to go into the London market for a loan of £2,400,000 which was very successful, and three times the amount asked for was tendered on the same terms

We are informed that arrangements have been made at the office of the sub-treasury for the redemption of the notes of the National Gold Bank and Trust Company at San Francisco Holders will do well to make the change as speedily as possible that the notes may be cancelled

Government Bonds

The credit of the government is well maintained despite the reactionary political plans which are so often made public The only bonds now offering are the 5-20's of 1867 and the funded loan of 1881 The former bears 6 per cent. interest and are quoted at a premium of 20 per cent and upwards in currency, against a premium of 16 per cent on gold. The Secretary is meeting with very encouraging success in placing the funded loan of 1881 which bears 5 per cent and is sold at a slight premium in coin. Following is a list of the various government bonds outstanding on the 1st instant:

Loans of 1858	$ 2 000
Loan of February, 1861	28 315 000
Oregon war debt	943 000
Loans of July and August, 1861	189,311 850
Loans of 1863	75 000 000
10-40's of 1864	194 563 300
5-20's of March 1864	364,600
5 20's of June 1864	45 852 400
5 20's of 1865	152 753 950
Consols of 1865	202 664 100
Consols of 1867	310 622 750
Consols of 1868	37 474 000
Funded loan of 1881	462 4 6 0 0
Total	$1 709,575 300

It will be seen that there is less than $38 000 000 of the funded loan of 1881 to go out, and the London Syndicate has the option of this at any time this month The Secretary will next offer the 6s per cent. bonds

Trade Review.

Such was the intensity of the rain and wind storm of yesterday and last night in which there was little abatement up to a late hour to-day that business was much retarded and so far during the week the volume of transactions has fallen much below the average for the season The stocks of imported merchandise in the hands of wholesale and jobbing houses in this city are ample for the trade wants at this season of the year Interior merchants have generally secured their fall goods and much of the business in that direction is now confined to orders to make up assortments The grocery trade shows a manifest activity in this way and though individual orders are not large their number and frequency make their aggregate very considerable and the increase in consumption of season by immigration to the population of the district supplied from this point Prices as a rule are firm at former quotations, especially in sugars coffees, syrups, etc. Salt is in very full supply and prices favor buyers a little more but the demand at this season is always large and there is no exception to this rule now

Domestic produce except breadstuffs shows slight receipts than last week as the weather has made hauling almost impossible and the market is supplied by boat and rail Wheat is not coming forward at a lively rate but is mostly of prior purchases and actual transactions are again reported slower in the interior full as being undisposed to concede the reduction while shippers claim only to pay even the reduced figure in order to secure enough to meet their present wants Many who are posted claim that the decline is not likely to be permanent while other who have equal foresight, cause but little hope of a reaction Current information in hand as to believe that prices in the Liverpool market will recover again but whether the shipowners may not himself correspondent and advances in freights is a matter that must be considered still speculating on the future of the trade

The leading articles in the produce market are held at our last quotations with a brisk trade for such as are generally supplied for home consumption from the wagons but quotations in prices is noted

Shipping Intelligence

The severity of the weather during the past few days has prevented all movement of the shipping at Astoria The steamship Cal Forbin had not left there when the boat left Astoria this morning

The schr Hera is about ready to sail for San Francisco

The ship Glenesdale will probably load at the Sandy river for Europe

The steamship Ajax got to sea bound for San Francisco last Monday afternoon

The steamship Orillamme from San Francisco is about due, had not been reported up to the time of going to press

The San Francisco Herald of the 16th says Several ships have been secured during the week to load wheat for the United Kingdom others have been laid on Loading prospects continue The rate of charter for wooden ships 27 6 1 and for Aberdeen ships 27 6 1

"ARE YOU GOING TO PAINT?"

CITY, March 1 1875

TO WHOM IT MAY CONCERN In an experience of three years with the Averill Chemical Paint more than one half my jobs have shanked and cracked in addition to letting the paint wear rotten to powder and out of sixteen failures the California Chemical Paint Company have refused to furnish Paint to replace but six of the sixteen I refer to the following houses that have cracked peeled and chalked off badly viz James Corey H H Myers M D the most part of P J Bryant J H Farmer Speak of them J H Trickey H W Beard Thomas Ryan P Ball Whitney William Wilson J M Pinfold R Hitchcock J A Bates Mush Hill Cath he Christ and I might run the number up

J B RHINEHART Painter

OFFICE POST, SAN FRANCISCO Sept 11 1875

To Whom it may concern Seeing various papers that the California Chemical Paint Company continue to deceive people by saying that the Averill paint will neither peel crack nor chalk off I the undersigned beg to say that I have painted with them time after time and in every case the paint has peeled chalked and cracked off in less than eighteen months after being painted by peeling cracking and chalking off in the worst manner imaginable I do hereby state that the Company have my name in their printed matter without my knowledge or consent E J BRYANT

CITY, March 1875

To whom it may concern My house painted with the Averill Chemical Paint in June 1874 failed in a little over one year after being painted by chalking peeling wasting and changing color some light color some dark The California Chemical Paint Company are knowing to this and yet continue to deceive the public by saying that the Averill Paint will not peel crack nor chalk

THOMAS DARROUGH

CITY, Sept 4 1875

To whom it may concern My house painted with the Averill Chemical Paint manufactured by the "California Chemical Paint Company" of San Francisco about two years ago failed in less than one year after it was painted by chalking off and changing color and I had a portion of it repainted

J D TRICKEY

CITY, Sept. 4 1875

To whom it may concern I had my fence painted in the fall of 1874 with the Averill Chemical Paint which was to procure and not to chalk peel or crack off but it chalked off in three months after it was painted

LAND FOR IMMIGRANTS.

Choice Farms for Sale.

4 000 ACRES, IN QUANTITIES TO SUIT PURCHASERS.

230 ACRES DUE SOUTH AND ADJOINING the Railroad Depot in Salem all under cultivation and suitable for grain or vegetables

1140 ACRES four miles southeast of Salem on the railroad with Mill creek running through it It is the choicest farming land in Marion county with fine springs consisting in part of the old Reid donation claim on which I raised the present year fifty bushels of wheat and three tons of timothy per acre. The first crop of oats I harvested on part of this land measured ninety four bushels per acre grain weighed and ground chained by Mr. Alfred Hunt of Salem

2,300 ACRES of prairie and light brush land, with timber for farming purposes, bounded by the Willamette river for four miles beautifully lake on the east boat landings all along the river commencing four miles north of Salem—**all choice grain land**—the largest and most suitable body of land to be found in the Willamette valley to be purchased by a colony To be sold from $15 to $25 per acre This land I will sell immediately to the very best purchasers It can be subdivided to the best possible advantage and I can offer any person or persons or colony of persons desiring to purchase homes in the best part of the Willamette valley near the city of Salem and within reach of the best social advantages as well as most favorably located with respect to markets greater inducements or more favorable terms than they ever expect to realize again
